

## Curriculum Vitae (May 2008)

### Personal details

Name: Michael Keizer  
Address: Unit 1 42 Milton Street, Elwood VIC 3184, Australia  
Email: m.keizer@phasuma.com  
Date and place of birth: 27<sup>th</sup> of December 1967, Amsterdam  
Nationality: Dutch

Health logistician with broad international medical/health and humanitarian experience. Wide experience in consulting and (project) management. Extensive experience in both financial/administrative/legal and technical/logistical issues, especially relating to supply line management.

### Key areas of expertise

- Supply line management
- Health procurement
- Capacity building

### Qualifications

2007 – (ongoing) **La Trobe University, Australia**  
Master of Public Health, specialising in health logistics and policy with a focus on developing countries

1989 - 1995 **Netherlands Institute of Registeraccountants/Nyenrode Business University**  
Auditing, first-phase degree (equivalent to a MSc Information Management)

### Professional experience

#### 2005 – 2006: Logistics officer, UNICEF Ethiopia

Assisted the Ethiopian Ministry of Health in logistics capacity building. Safeguarded UNICEF's input in preparing the Ethiopian National Master Plan for Health Commodities (a multi-year plan that aims at a total overhaul of the country's logistics system for health care commodities; the drafting process was led by UNICEF). Coordinated procurement services for various counterparts (annual turnover circa USD 40 million), including planning and quantification, procurement, and international and national transport and distribution; counterparts comprised the Federal Ministry of Health and various Regional Health Bureaus.

#### 2001 – 2005: Médecins Sans Frontières (MSF)

Worked in various capacities, mainly in the logistics field, both in field projects and at headquarters, e.g.

- Analysed supply line management for MSF's projects in Somalia and prepared reorganization plan;
- Reorganized supply line management for MSF's projects in Burundi;
- Analysed MSF-Holland's logistics information management and prepared improvement plan (including organisational changes, software choices, and implementation).

### **1999 – 2001: De Nederlandsche Bank N.V**

De Nederlandsche Bank is the Dutch central bank and financial markets authority.

Junior auditor, later Auditor

Performed financial audits of internal and external financial reporting, operational and IT audits. Focus on financial market operations and accounting/information management processes. Consulting to IMF constituency countries' central banks (Russia, Macedonia).

### **1991 – 1999: PricewaterhouseCoopers (and legal predecessors)**

Senior Associate Business Assurance, later Supervisor Business Assurance

Responsible for daily management and technical supervision of (large) audit and consulting assignments in several sectors and countries (mainly West and Central Europe). Coordinator of National Support Group for PwC's proprietary audit support software. Developer and instructor for several internal and external courses. Acting member of PwC's national Audit Approach Implementation Team (responsible for countrywide implementation of new audit approach in the Netherlands).

### **Additional professional activities**

Since 2008 Sessional (guest) lecturer at the Centre for International Health, Burnet Institute (Australia).

### **Professional memberships**
